Capacity Restrictions

The Greek authorities have imposed a capacity restriction for vessels with a capacity above 12 persons. In that case, the excess number of crew members allowed is reduced by 50 %.

For example, if a boat like Idrusa (Farr 80) has permission to take 20 Persons onboard (written on official documents), he is allowed to take 12 people plus half of the excess which is 8 ($20 - 12 = 8$), the half of the excess is 4 ($8/2 = 4$), thus a total of 16 people ($12 + 4 = 16$) are allowed on board according to the Greek authorities.
